- Warranty: 12-Month on Printer / 6-Month on Printhead
- **Free Pre-Sale & Post-Sale Technical Support For Life of Printer**

The Zebra 220XiIIPlus thermal transfer bar code printer prints the widest labels of all Performance-Line™ printers: 8.5-inch-wide labels at 10" per second. These capabilities make the 220XiIIPlus printer ideal for use in all types of rugged, industrial environments. The 220XiII printer is perfect for your most critical applications where only the most reliable, durable printers with 24-hour duty cycles will survive. It's designed to integrate perfectly with your existing printers, eliminating any compatibility hassles. All this combined with the following features makes the 220XiII printer perfect for your most demanding environments. Serial and high-speed parallel interfaces allow easy connection of a Zebra printer to any common PC or laptop. RS-485 multidrop capabilities offer a low-cost networking solution between a PC and several Zebra printers. PCMCIA Memory Card Interface allows easy storage of complete label formats, graphic files and fonts, minimizes label format download time thereby maximizing printer throughput, supports a number of typefaces, and supports multiple international languages. Performance-Line printers are designed for long, continuous operation in harsh environments. With Zebra quality design packed into every printer, from the heavy gage steel covering to the stainless steel spindles, you are assured of high-performance label printing every time. *If you would like to receive a complete manufacturer's spec sheet for the Zebra 220XiIIIPlus, please call 800-644-0077.*
